

The TARDIS

If I could pick a door I would pick the TARDIS because we can go back in time and I can go where ever I want to go to and if I am running late I can go into the TARDIS and get there really fast and be on time again.

Firstly with the TARDIS I can go back in time and go to any age I want to go to at any time I want to and have can have lots of fun in the past.

Secondly if I am running late I can go into the TARDIS and get back on time straight away and if I need to go somewhere I can get where really fast.

Finally it is really fast at go to place and I just have to say where I want to go and snap my fingers and I will be where and you can tell it the widest places ever.

So they are just a few reasons why I pick the TARDIS. So witch door do you pick?
