

# #BANTHECAN

While we still CAN!

**Destroying these natural habitats, messing with the unicorn king. Do you want that? Taking away their habitats, their people, (Or Unicorns). This killing and slaughtering of unicorns is sending them down, sinking them to the bottom, there population depleting.**

**Firstly, The fantastical unicorn king(Lachlan Falley)AKA: Boris Wiggles, is concerned of what these sick monsters(us), are doing to his unicorns. Imagine that thick rainbow blood slowly dripping down your hands. Do you want those hands to be yours?**

**In addition, these innocent unicorns, being gruesomely slaughtered is shattering kids dreams and hope. They will never see a unicorn again. True unicorns will no longer exist.**

**If they continue to take these precious unicorns from our land, it will destroy our environment, enchanted areas,**

**losing their magic glow. Places protected from evil will become increasingly more dangerous.**

**Don't take unicorns from us! You have now seen why.**
